

# OPL Dryers

## WASCOMAT D SERIES

Precision-engineered for efficiency, ease of use, and superior drying results, **our dryers are designed to work as a system with Wascomat washers**. Whether for a hospital, nursing home, hotel, school, or other facility, Wascomat dryers are your best choice for reliability, durability and efficiency.

### Features and Benefits

- Optimal combination of gas consumption (Btu/hr) and airflow (CFM) provides the best-in-the-world drying performance with the fastest drying time and the lowest energy consumption
- Auto Stop ensures the dryer stops running when linens are dry – saves time and energy while preserving linen life
- Extra large doors make loading and unloading easy
- Easy to clean lint screen – best in the industry
- Quiet operation – Wascomat dryers are designed to keep noise level below 70 dB (A)
- Reverse drum operation minimizes tangling and wrinkling, and improves dryer efficiency
- Sturdy drum suspension with double-sealed bearings and belt drive for “workhorse” durability
- Provides unsurpassed control of temperatures, to avoid damage to linens and maximize reliability
- Axial Airflow and tight construction for extremely low energy consumption – dries faster, saving up to 25% in gas

### Controls

#### • Compass Pro Controller

- Customizable program names
- Large display for easy program selection
- 3 language options
- Real-time clock for automatic start and time/date stamp
- Detailed user statistics and programmability

### A Long History of Excellence

Wascomat dryers offer reliability, durability and significant energy savings for on-premises laundry applications.

### Faster Drying Using Up to 25% Less Gas

Built to last, Wascomat dryers are precision-engineered for efficiency, ease of use, and superior drying results. Our dryers are 8-12% larger than competitive models. This allows for even faster drying using less energy, as the linens are allowed to expand, providing more surface area to the heated air. You will appreciate the “green” engineering, cost savings, easy operation, and years of low maintenance.

### Reversing Drums

Wascomat reversing drums reduce energy consumption, prevent tangling, and laundry dries more quickly.

### Residual Moisture Control (Optional)

The Residual Moisture Control (RMC) option is available on Wascomat single pocket dryers. RMC allows for precise control of remaining moisture in the load. This is best for linens that require a small amount of dampness to further process the linens with pressing equipment. By not over-drying, you'll benefit from longer linen life and significant labor and energy savings.
