

— CyberWash Magnetic Stripe CardSlides —

CyberWash CardSlides Offer the Flexibility of Reading Both SmartCards and Magnetic Stripe Cards

CyberWash CardSlides are designed to connect with the location's on-site computers via a hardwired network; they will read SmartCards and Magnetic Stripe cards. When a Magnetic Stripe card is swiped, the information on the card is sent through the network to the computers which contain the location's data base. If the inserted card has sufficient funds available the computer will send back an approval and signal the machine to start. If a SmartCard is inserted the CardSlide will read the information directly from the card and the need to access the computer is eliminated; this provides operational continuity in the event of a computer malfunction. SmartCard Management Cards are used to create the initial set up.

Cyberwash Magnetic Stripe CardSlides — 11-004-XXX

CyberWash Magnetic Stripe CardSlides Benefits:

- ✓ Durable Construction
- ✓ Plug and Play Interface
- ✓ No Moving Parts
- ✓ Hardwired to local computer
- ✓ Specific readers available for all brands
