

Product Name: 294 soap vender

Model Number: 294 soap

Order Code: 294 soap

Retail price: \$510.00

Description: 2 column coin slide operated soap vender

Features: The 294 is a 2 column coin slide operated vending machine that is perfect for any laundry room. The vender has a 46 vend capacity. This vender features ESD or Greenwald Vertical 5 coin slides (specify when ordering) which makes multi pricing (any column any price from .25 to 1.25)

possible.

The cabinet offers a hinged guard style door with high security locks, a large plexi-glass product display area, and a locked cash box. The package weights lock out the vend cycle when the column is empty to cut down on user abuse.

For ultimate security, two steel straps and two locks should be used on each vending machine. Add \$95.00 for each strap set (includes American 2000 lock). See 294 soap vender w/security straps.
