## 75-Ib Capacity Coin Dryer

## Standard Features:

- 75-lb. capacity
- 22.4 cu. ft. basket volume
- 204,000 Btu/hr heat input, 1,200 cfm airflow
- Radial airflow
- Steel door with gasketless glass
- 10 "diameter vent connection
- Fits though standard 36" door
- Extra-wide 44-1/2" diameter drum for excellent air circulation and drying
- Large 31-3/8" door
- Available in gas and electric heat

## Optional Features:

- Stainless steel front, cabinet \& basket
- Reversing basket

AD-78 Coin Dryer

- S.A.F.E. (Sensor Activated Fire Extinguishing System)

## Why Purchase ADC AD-78?

## Engineer-Driven Design That is Built to Last

Our dryers showcase ADC's engineer-driven approach to design. Bearings are permanently lubricated on the motor and drive system. There are no chains used at ADC; rather, we use V-belts and pulleys for smooth, quiet, and trouble-free operation. Our dryer cabinets are electrostatically powder-painted inside and out, then baked at 420-degrees fahrenheit before final assembly—ensuring the hardest surface and the longest-lasting finish in the industry.

## Rugged Steel Door with Gasketless Door Glass

Our dryer doors are one solid piece of steel with gasketless glass. This eliminates the issue of glass falling out due to wear and tear on rubber gaskets that some manufacturers use to secure their glass. The security and durability that gasketless glass provides is essential to a successful laundromat operation.

## Easy-to-Read, Multilingual Controls

We were the first to bring computer-operated dryers to the market and today we continue to be a leader in applying technology to dryer operation. Our years of experience along with our accessible design, easy-to-read LCD screens and our user-friendly multilingual interface positions ADC as the pioneer in the laundry industry.
