

FASCARD

EASY TO INSTALL, EASY TO USE.

FASCARD OVERVIEW

FasCard accepts coin, credit/debit cards, mobile payments and loyalty cards

The FasCard system is designed to accept any combination of coins, credit/debit cards, mobile payments and loyalty cards at your washers and dryers. This perfect hybrid solution focuses on automating laundromats, giving store owners all the tools they need to succeed in one, integrated system.

Freedom to choose your own merchant processor

Loyalty programs for coin and card customers

Time of day pricing for coin and card

Start machines from any smart phone using NFC (ApplePay and AndroidPay)

Multi-vend Support – no extra key presses required

Engineered and built in the USA

FASCARD FEATURES

Freedom to choose any merchant processor

FasCard is one of the only products on the market that lets you choose your own credit card merchant services provider. Having the option to choose gives you the ability to shop for the best rates and do business with whom you prefer. FasCard also allows you to change processors at any time.

Don't lock yourself into a product that forces you to use a specific processor. If they claim to let you choose, be sure to verify it. Only FasCard gives you complete freedom over your provider.

Powerful loyalty programs for both coin and card customers

Accepting debit and credit cards is only a small piece of what FasCard can offer. Giving your customers reasons to do business with you versus your competition begins by encouraging loyalty.

FasCard's loyalty programs include Loyalty Points, Bonus Packages, Free Dry, Group Discounts and more, and FasCard is the only system that allows you to market these programs to your coin customers too!

Invest in the technology that gives you more ways to increase your business!

ADDITIONAL FEATURES

Start machines from any smart phone

Smart phones play an integral role in our lives and in the lives of your customers. With the FasCard app, available for both iPhone and Android, your customers will be able to create an account, add value, manage loyalty cards, remotely check machine availability, request cycle completion notifications and even start a machine!

The FasCard app acts as digital a loyalty card and will streamline the way your customers interact with your machines and do their laundry, which will improve customer satisfaction, increase your profits, and grow your business.

Tap to pay with NFC (ApplePay and AndroidPay) available!

Time of day pricing for coin and card customers

Offering specials during slow periods is a great way to add volume to your business.

FasCard not only allows you to schedule price changes at any time, but is the only system on the market that makes these changes for both card and coin customers! Once pricing schedules have been created online they are automatically downloaded into the store and the machines adjust their price at the appropriate times.

Have older equipment that currently does not support time of day pricing? No problem, FasCard adds this feature to any machine, new or old.

Multi-vend Support - no extra key presses required

Today's laundry equipment is more advanced than ever. Enhanced controls allow store owners to increase profits by offering users the ability to 'upgrade' their cycles, as well as charge more for hot water or less for cold. These features can make a positive impact on a store's bottom line, but only if the payment system supports them properly.

FasCard is fully compatible with these features and has developed seamless interfaces that allow the machine to 'sell' these upgrades without the user having to touch the FasCard reader. Others may claim to 'work' with these latest controls, but require the user to press buttons on their card reader to match the price on the machine. FasCard integrates deeply with the machine's control ensuring a more natural user experience.

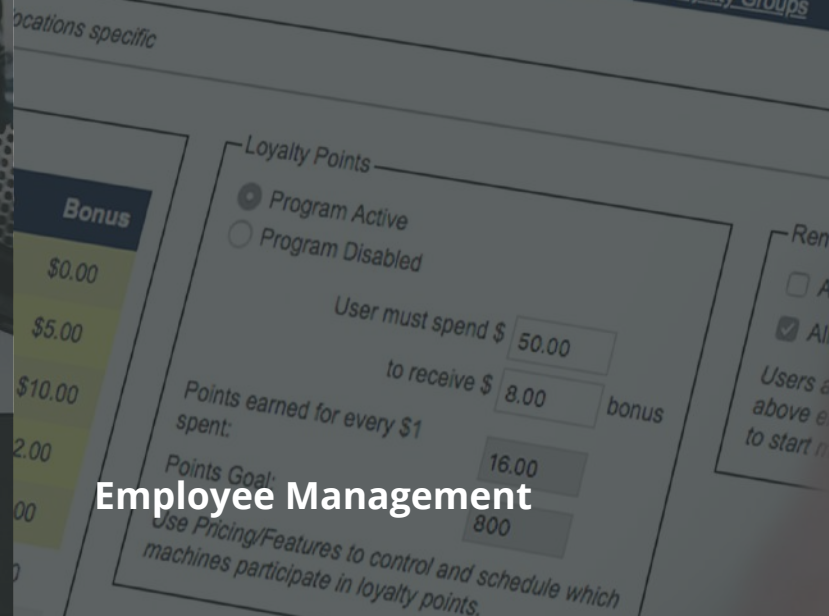

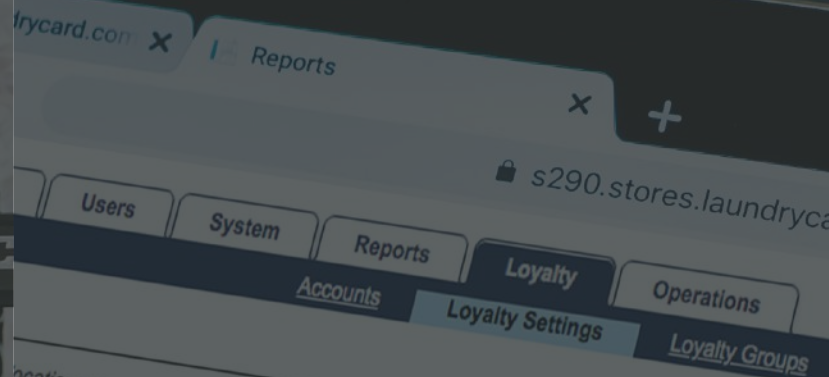

See our compatibility guide to learn more about how we integrate with today's latest brands.

Employee Management

Automate and manage employee schedules remotely with FasCard. Through the FasCard admin portal, you can create, edit and monitor on-time and ongoing employee work schedules for multiple locations. Recurring shifts may even be scheduled to recur on a daily, weekly, monthly, or yearly basis.

Additionally, the FasCard system lets you simplify employee time management by allowing employees to clock in and out from any FasCard reader in the store. An employee may swipe their dedicated card on a reader to clock in and clock out or scan a FasCard reader bar code with the mobile app.

Owners can easily assign scheduled tasks to employees, track their progress and update them at any time. Employees are able to easily view the tasks assigned to them and check them off once they are completed.

TOUCH KIOSK

Automate loyalty card distribution and cash acceptance

Have an unattended laundromat or need a simple and convenient way for customers to get and add value to a loyalty card? The Touch Kiosk allows customers to view recent transactions, register their loyalty account, redeem coupon codes and much more! Take your loyalty programs to the next level with the FasCard Touch Kiosk.

- 10" color touch screen display
- On screen video instruction in English and Spanish
- Accepts cash and credit/debit cards
- Front and rear accessible
- Live status of bill count
- Email notification when nearing bill capacity
- Email notification when collected

ADD VALUE KIOSK

Give your customers an easy way to add value to their loyalty card

Simple and affordable, the Add Value Kiosk is perfect for small laundry rooms or as a backup kiosk in larger locations.

- High security steel enclosure
- High security Medeco locking system
- Mount to wall or counter top
- Wireless connection to FasCard system
- Front accessible for collection and service
- Accepts cash and credit/debit cards
- 1000 bill note capacity
- Live status of bill count
- Email notification when nearing bill capacity
- Email notification when collected

ONLINE SYSTEM MANAGEMENT

Accessing the FasCard system is simple for store owners and can be performed remotely from a smartphone, tablet, or computer.

The FasCard management tools allow store owners to configure vend prices, specials, configure alerts, and monitor the status of the system and equipment in real time.

Reporting tools allow owners to audit machine sales for credit and coin transactions and view many other sales, collection and management reports live.

OTHER UNIQUE FEATURES

FasCard does not require a minimum number of readers to be purchased

2-year warranty for F2 card readers and satellites

Easy to install and field repairable

Phone technical support included in monthly hosting

Multi-lingual

Rebuilt replacement program for out of warranty parts

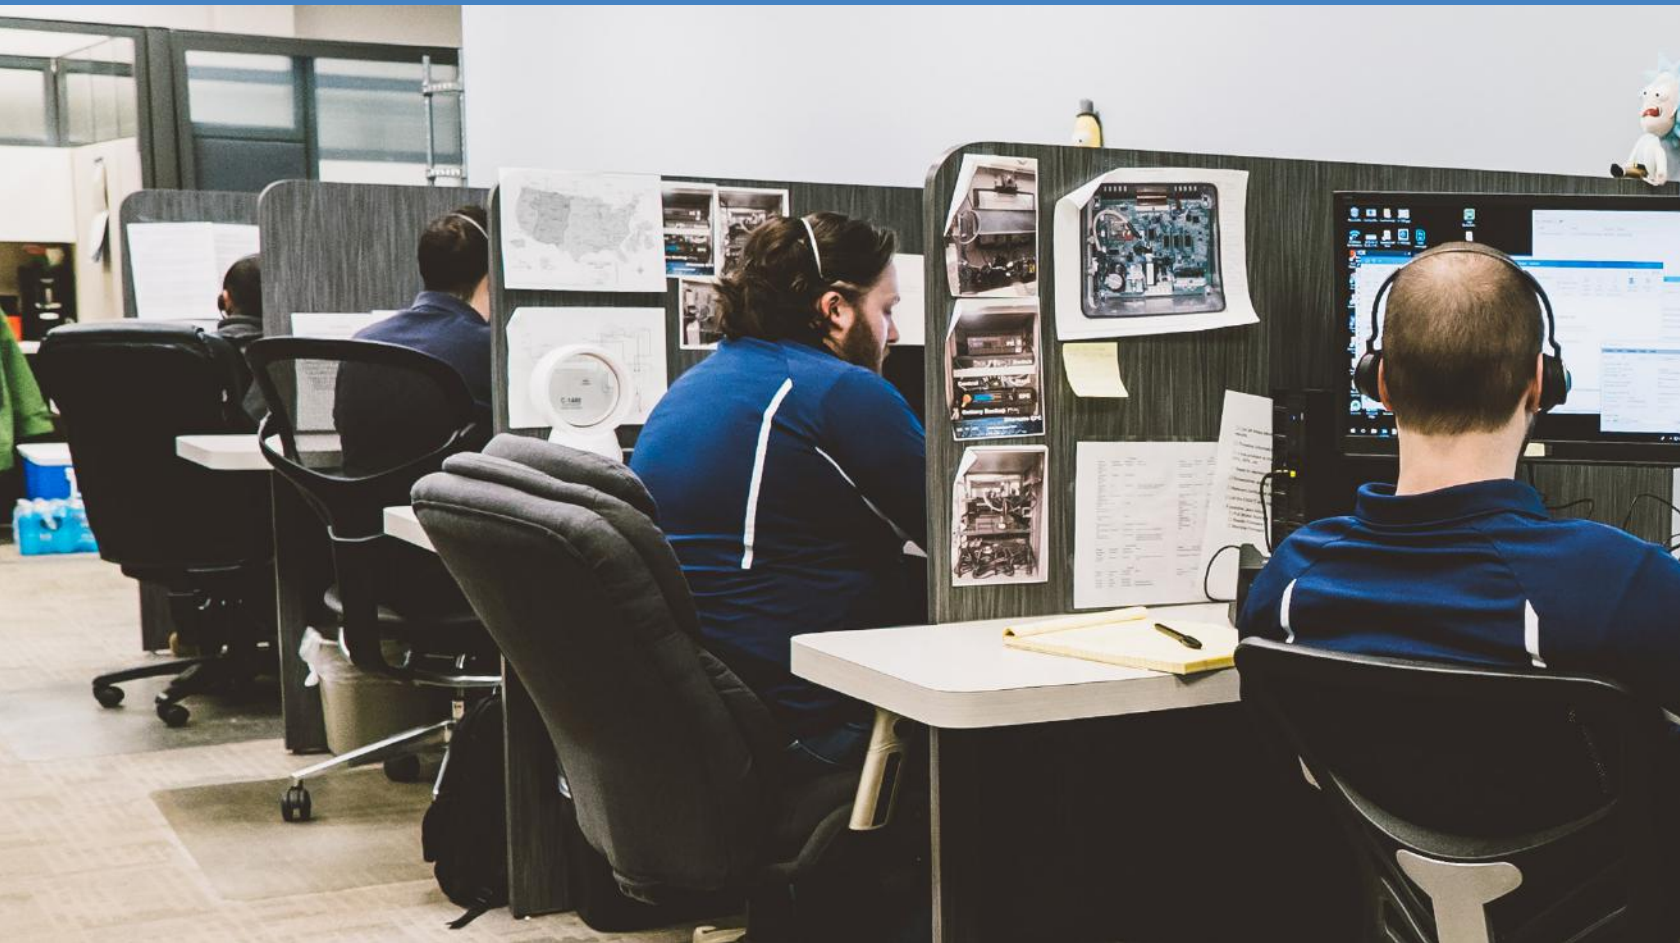

DEVELOPED BY STORE OWNERS FOR STORE OWNERS

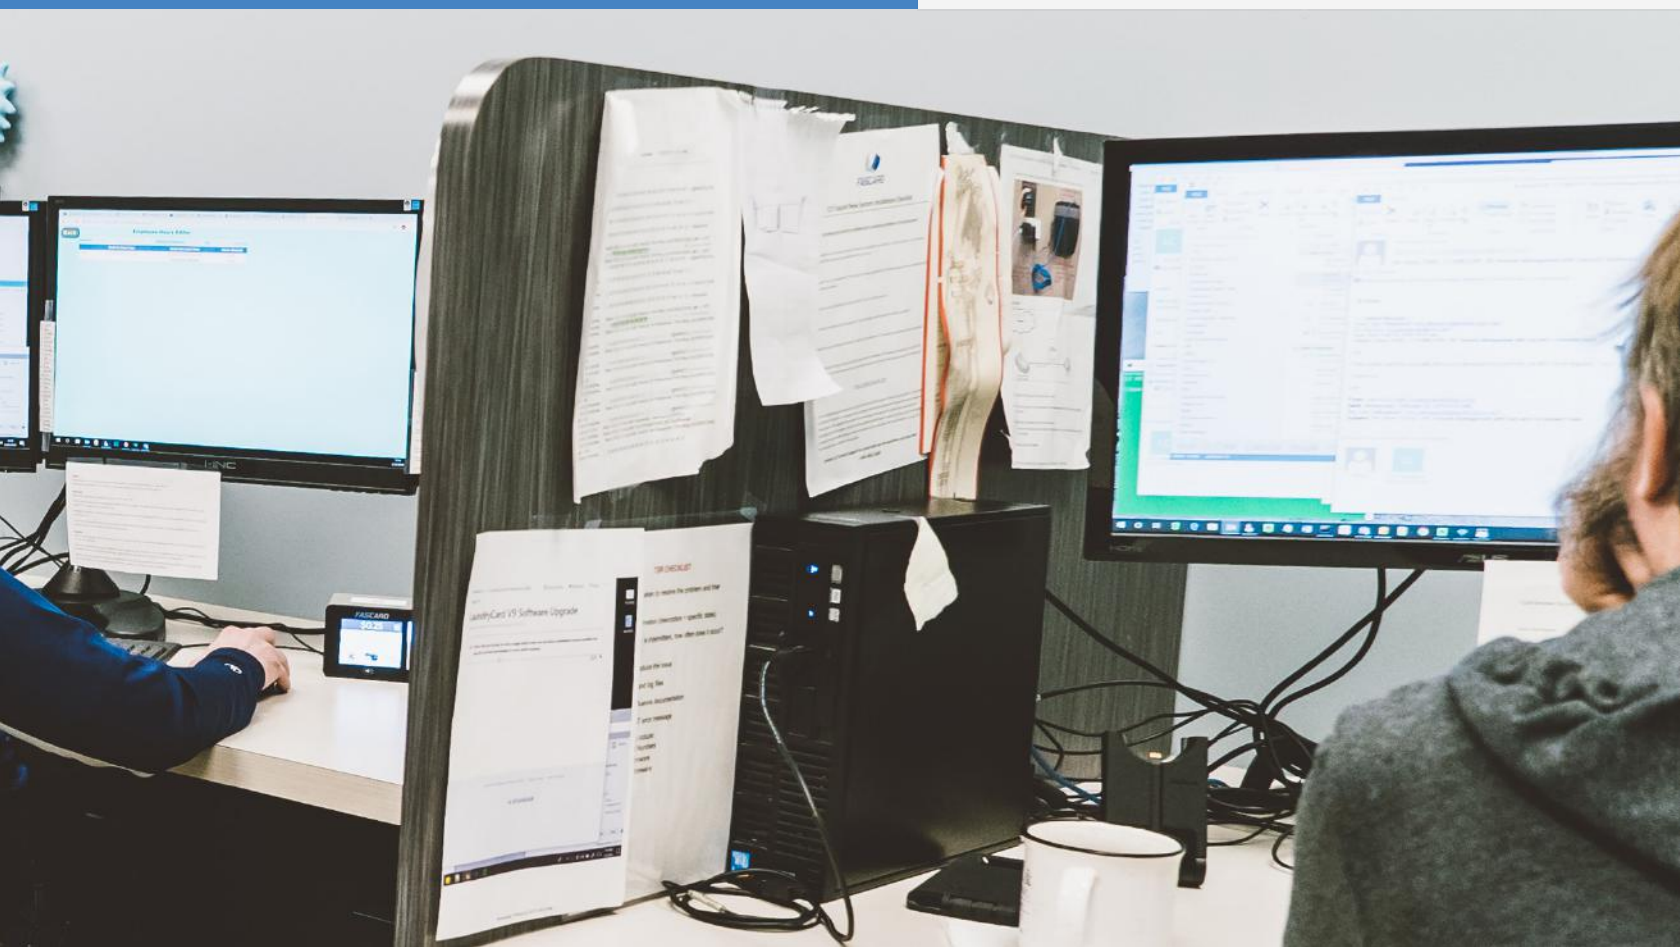

Family owned and operated, Card Concepts, Inc. was born from over 40 years of experience in the vended laundry industry. Whether you're looking for a complete loyalty card system or a wireless credit card system to add to your coin machines, CCI can provide the solution. Since 2000, CCI has helped hundreds of store owners automate their businesses while maximizing their revenue.

A woman in a blue uniform and safety glasses is working on a circuit board in a factory setting. She is using a tool to work on the board. In the background, another worker is visible. The scene is a busy manufacturing environment with various components and tools on the workbench.

CCI products are proudly
engineered and built in
the USA

CCI leads the industry with its commitment to customers, offering 24 hour technical support from the best support team in the industry.
