

KCS Series: Coin Counting Scales

The KCS Series Coin Counting Scale is an easy-to-use, highly accurate scale for weighing coins and tokens. With fast, one-button operation, the scale will count in 3 seconds or less, displaying denomination, quantity and total value. The keypad has 6 pre-programmed settings for pennies, nickels, dimes, quarters, fifty-cent pieces and dollar coins, as well as 4 empty keys that allow for customized settings for counting tokens. Keys can be password protected, adding security when used by operators in the field. The scale is battery operated and completely portable. The 200 hours of continuous use, on a single charge, make this scale perfect for route operators. Up to 25 coin counts can be accumulated internally for batch counting, with grand totals being provided. Scale comes standard with RS-232 port for printer interface.

Options:
