TLP1426 TOUCH

FULL-SIZE

The TLPFUM-1426 full-size units are constructed with heavy-duty solid steel, featuring dual T-handle tubular locks with proprietary anti-vandal measures, including resistance against forced-entry attacks with specially designed access doors and concealed hinges. The Laundry Pass add-value stations are designed to service high-volume traffic with ease through the use of a unique contactless card reader, that enables fast turnaround through RFID.

Card dispensers come with a capacity of 200 cards and are built to last with a ribbon-free mechanism. The unit can also be managed locally through the included configuration keyboard and optional display, obviating the need for network connectivity, and can be configured with a rear access panel to provide access on the other side of a wall for an office.

Available in coated steel and stainless steel
