New   The ESD SLIM VTM™   New

Economical in Size and Economical in Cost, the New ESD SLIM Value Transfer Machine Allows Value to be Transferred from a Credit Card, Debit Card, Pin-based Debit Card, or EBT Card to a SmartCard. The ESD SLIM VTM is also Ready to Accept Mobile Payment Options.

The ESD Slim VTM is designed to add value to a Smart Card by offering the customer many choices. They begin by inserting a Smart Card after which a credit card or a debit card can be swiped using the built-in pin-pad device. Next, the desired value to be transferred from the credit or debit card to the Smart Card is as simple as an input on the pin-pad and the transfer process is complete. Because the ESD Slim is equipped with an encrypted pin-pad, it will also allow the acceptance of pin-based debit cards and Electronic Benefit Transfer Cards (EBT). This is all made simple through a user friendly interface that will assist the customer in engaging all of the features offered. The pin pad device is ready to accept EMV credit cards (Credit cards with smart chips). The ESD Slim is ready to accept NFC devices like Apple Pay, Samsung Pay and Android Pay.

ESD SLIM VTM™ Features:

☑ No Cash in Unit – No Collections
☑ Transfers Authorized Credit and Debit Card Value to a SmartCard
☑ Encrypted Pin-pad Allows Acceptance of EBT and Pin Based Debit Cards
☑ Accepts NFC devices including Apple Pay, Samsung Pay, Android Pay
☑ EMV Hardware Ready

ESD SLIM™

A VTM with An All New Concept

The ESD Slim is unlike previous ESD Diamond Center models, because it does not rely on an internal computer. Rather. it connects directly to the Internet through the encrypted pin-pad and built-in swipe. This uncomplicated device is capable of performing a number of functions making it simple for customers to operate and economical for operators to purchase.
